Registration Deadline:
July 6, 2010

Course Description:

Apple Hardware Service Class Info

Apple Certified Macintosh Technician (ACMT) certification verifies the ability to perform basic troubleshooting and repair of both desktop and portable Macintosh systems, such as iMac and MacBook Pro. ACMT certification exams emphasize identifying and resolving common Mac OS X problems, and using Apple Service and Support products and practices to effectively repair Apple hardware.

This 5-day class teaches students how to identify and resolve issues with Apple desktop and portable computers. You will learn Apple hardware specifications, troubleshooting techniques, component isolation steps, take-apart procedures, and general service guidelines and resources: everything you need to diagnose and repair Apple computers.

This class combines lectures, demonstrations, and hands-on lab exercises to prepare students for certification as Apple hardware service technicians.

Product Code	Description	Sell	Qty	Total
AppleIT-ACMT	Apple Certified Macintosh Technician (ACMT) certification verifies the ability to perform basic troubleshooting and repair of both desktop and portable Macintosh systems, such as iMac and MacBook Pro. ACMT certification exams emphasize identifying and resolving common Mac OS X problems, and using Apple Service and Support products and practices to effectively repair Apple hardware.	\$2500.00	1	\$2500.00
Trainer-Shelley Weiner	Shelley Weiner, President of Business Rules, Inc., is a native New Yorker living in the Hudson Valley. She holds degrees from Colby College and Columbia University. Shelley, who started her career in graphic arts production and sales, began her Apple training career in 2003. She teaches Apple IT and hardware service classes at her own training center and across the country. Jazzing jaded technicians and opening PC minds to the joys of Apple products are two of her biggest highs, along with cooking, listening to everything from opera to samba, and reading non-fiction of all types.	\$0.00	1	\$0.00
AATC-Exam	Apple Certification Exam – Hardware Certification	\$150.00	1	\$150.00
AATC-Exam	Apple Certification Exam – Software (OS) Certification	\$150.00	1	\$150.00
Notes	Exams are recommended but not required to take this course. To become certified, a candidate must pass the Hardware and Software Certification. This course teaches the material needed to pass the more difficult hardware certification.	\$0.00	1	\$0.00
Notes	Students come prepared to take the Software Certification will have an opportunity to do so during this class, and could then emerge as Apple Certified Macintosh Technicians.	\$0.00	1	\$0.00
Discount	Registration Discount	\$200.00	-1	\$-200.00
Subtotal				\$2600.00
EBR				\$0.00
LA				\$0.00
Total				\$2600.00

All labor estimates are simply estimates. The final invoice will reflect actual time spent.

All orders over \$1000 require pre-payment. Special order items are non-returnable.

We reserve the right to collect a 15% restocking fee. Special order items may be exchanged at the Mac Consulting Group's discretion only.
